SOLHUMA ADDS NATURAL FLAVOR TO HEALTHY COOKING ON FATHER'S DAY WEEKEND *Gas free, ecological and portable BBQ device adapted to a healthy family lifestyle*

MONTREAL, Quebec – (Marketwire – June 16, 2010) – SolHuma, the Quebec-based Green Tech firm acclaimed for developing the VitalStove™, announces the launch of its new addition, the Vital Grill™, at the fifth edition of the Salon national de l'environnement (SNE 2010) in Montreal.

Created to enhance the outdoor cooking experience without damaging the environment, Vital Grill™ is the only cooking platform that can be safely fixed to the VitalStove™ to grill, bake, smoke or stew healthy meals without relying on toxic fuels, either liquid or gas. The Vital Grill™ transmits up to 20,000 BTU per hour (6000W) of intense heat to bake healthy meals with the most natural and tasteful essences of hardwood.

WHAT: First national unveiling of the Vital Grill™ by Green Tech firm SolHuma at SNE 2010.

WHO: 35,000 visitors, 200 exhibitors and Keynote speaker Karel Mayrand of the Fondation David Suzuki.

WHERE: Meet SolHuma at Exhibition Booth # 199, Place des Vestiges, Old Port of Montreal.

WHEN: June 18, 19, and 20, 2010 – Opening Reception on Friday at 18h30.

About SolHuma:

SolHuma develops environmentally-sound technological cooking and safety devices specifically designed to address the needs of governments, non-governmental organizations and individuals (families and outdoor enthusiasts) in every outdoor situation, including emergencies and leisure cooking. SolHuma's green products are available in Canada, United-States, Latin America, Europe, Asia and Africa. The company reinvests a portion of its online sales in humanitarian causes.
